## PERSONAL PROJECTS

<http://chainmaps.net/> 2015

- A tiny project similar to google-mymaps, but fully developed on Ethereum blockchain and web3.js.  
Used by right hands, is a powerful anti-censorship software to publish simple GIS datasets.

**Ula Ola Surf** 2014 - Now

- Making eco-friendly surf stuff using open hardware, 3D printing, robotics and Python.

## ACTIVISM

**Montenoso** 2014 - 2016

- I've been helping with GIS reports with python and postGIS/PostgreSQL and doing web representations using leafLet API's and geoserver.

**Greenpeace** 2009 - 2014

- Activist: doing several things, including electronic devices and secure communications during actions.
- Board member of Greenpeace España for Galicia during 2 years.
